1. Masala Chai
2. Black Tea
3. Sulaimani Chai

GOOSEBUMPS
MOMENTS

This Festive Season, Light up your Celebrations
with Goosebumps!

The journey of **Goosebumps**

Goosebumps begin life as natural ingredient, handpicked straight from Mother Earth's lap.

We masterfully blend them with modern gourmet flourishes refined by top chefs and let the magic of the recipe take its course in the nourishing warmth of the Sun.

Soon, these recipes emerge from the centuries old processes, tried and tested by mothers and grandmothers, as pure gastronomic works of art.

Ready to give Goosebumps to those who love to take their tongues on an adventure.

We learnt from our **Mothers & Grandmothers**

We owe our expertise to our mothers and grandmothers. They have been a big influence on not just how we make our products but also how we do business.

These strong and talented women have taught us to value quality, build integrity and always listen to our customers. They also instilled in us the respect for humanity and inspired us to create an inclusive work culture that encourages and empowers women.

Innovating, **Every day**

With the values from our mothers and grandmothers and the spirit of adventure in our hearts, our journey has just begun.

We pledge listen to our customers and always serve them with the highest quality products. We aim to create newer recipes that delight. We see a future of sustainable and healthy growth for all. We are ready to give Goosebumps to the world.

Tradition

Innovation

Nutrition

Master Blender

Blending Tradition, Nutrition and Adventure

Like the follicles that rise and give you 'the feels', we have our own pillars of the brand that do the same for us.

Mrs. Mita Mehta

BLENDING IN 'TRADITION'

First up, we have Mrs. Mehta, who was born and brought up in Coonoor, along the Spice Garden. With her enriching and knowledgeable childhood that revolved around multitude of spices and various kinds of foods that can be made with it, her experience that has spanned for more than two decades, she brings in a finesse in understanding the spices and pickles in a way we don't believe anyone else to do.

Mrs. Mehta, one of the co-founder of Goosebumps, brings her expertise and blends it with tradition to give you the most authentic and delicious Indian recipes of the land.

Mrs. Ishita Shah

BLENDING NUTRITION

A pioneer in the field of biology and her card to bring to the table has Nutrition written on it. With her years as a Ph.D. student in Cell Biology, and her post-doctoral fellowship at TIFR, she had intricate knowledge about the smallest things that makes us, us. Her entrance in the food industry has been a no brainer with her knowledge and expertise about the minute elements and their nutrient values.

Her expertise brought in a varied array of functionality with the values of nutrition and the belief that healthy food can be delicious, even more than the regular food we eat. Obviously, why would we gulp tablets and tablets, if we can enjoy the delectable palette of vitamins and other health benefits through food?

Mr. Sanjoy Solomon

BLENDING ADVENTURE & INNOVATION

A graduate of Institute of Hotel Management and a passionate food enthusiast, has had a lot of experience in the industry, with creation of food, ideation for recipes and many things that surround the concept of, 'Giving more than just food, give an experience.'

After collecting numerous lessons and learning through multitudes of channels while working in different countries like New Zealand and Dubai, he brings his experience to our table and eventually yours to devour and savour.

Sanjoy works on conceptualization and adding a certain suave and finesse to the recipes and their final products.

A pioneer in the modern food scene, we bring our Trinity Circle to a close and present our Master Blender of Adventure, Sanjoy Solomon!
